# Visa Grant Fact Sheet

Yulong YAN

This information will help you understand your visa.

## Checking your visa details

You can check and email your visa details and conditions at any time using the Visa Entitlement Verification Online (VEVO) system. To access VEVO, you can use the QR Code provided in the grant notice or visit [www.border.gov.au/vevo](http://www.border.gov.au/vevo)

You will need to enter the following information:

- your Visa Grant Number or Transaction Reference Number
- your passport or ImmiCard information.

You can also check and email your visa details through the myVEVO mobile app.

## Maintaining a valid visa

You have been granted an Australian visa. You must maintain your visa status and not breach your obligations while you are in Australia. You must hold a visa which has not expired to maintain your status as a lawful non-citizen in Australia.

Your visa has been granted for a specific stay period. The stay period is the period of time that you are permitted to stay in Australia. The period is between the date that you are legally entitled to enter Australia and the date that your visa expires. On or before the visa expiry date you will need to leave Australia or make other arrangements with us before this date. Failure to do this will mean your stay will become unlawful. If you think you will not be able to depart Australia by the date your visa expires, you should contact us as soon as possible.

For specific information about whether you are permitted single or multiple entries into Australia, the date of arrival and date of visa expiry, refer to your visa grant notice.

More information about the Community Status Resolution Service (CSRS) is available on our website at [www.border.gov.au/csrs](http://www.border.gov.au/csrs)

## Visa conditions

Your visa has been granted with limitations on what you can do in Australia. These limitations are known as 'visa conditions'. Visa conditions have a legal basis in the *Migration Act 1958* and Migration Regulations 1994 and place restraints on your conduct when you are in Australia. Each visa holder must comply with the visa conditions as there are serious consequences for non-compliance. The visa could be cancelled after which you may be detained or even removed from Australia. It may not be possible for you to apply for another Australian visa in the future.

The following visa condition(s) apply to you.

## Visa condition 8501

- Visa condition 8501 (student) applies to you. This means you must maintain adequate arrangements for health insurance (generally Overseas Student Health Cover) while you are in Australia. You must not enter Australia before your Overseas Student Health Cover has begun. You are not permitted to remain in Australia after your Overseas Student Health Cover has expired. If you are a student from Norway, Belgium or Sweden you may not need to maintain Overseas Student Health Cover.

More information is available on our website at [www.border.gov.au/Trav/Stud/More/Health-Insurance-for-Students](http://www.border.gov.au/Trav/Stud/More/Health-Insurance-for-Students)

## Visa condition 8105

- Visa condition 8105 applies to you. This means that you must not engage in any work before your course of study commences. You are also not permitted to work more than 40 hours per fortnight when you are in Australia when your course of study is in session.

Note the 40 hour requirement does not apply if you are engaged in work that was specified as a requirement of the course when the course particulars were entered into the Commonwealth Register of Institutions and Courses for Overseas Students and the student visa was granted for a masters or doctoral degree.

## Visa condition 8202

- Visa condition 8202 applies to you. This means that you must be enrolled in a full-time course and satisfy the course requirements of your enrolment including the course level, course progress and course attendance. Unless you are a Defence, Foreign Affairs or secondary exchange student, the course you are undertaking must be a registered course with the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS).

The course you are undertaking must give you a qualification from the Australian Qualifications Framework that is at the same level or higher level than the course mentioned in your grant letter. For further information about the Australian Qualification Framework go to [www.aqf.ed.au](http://www.aqf.ed.au)

## Visa condition 8516

- Visa condition 8516 applies to you. This condition means that you must continue to maintain your eligibility as a person who would satisfy the criteria for the grant of your visa.

## Visa conditions 8517

- Visa condition 8517 applies to you. This condition means that you must ensure that adequate schooling arrangements are maintained for your school age dependants who will be in Australia for more than three months on the visa.

## Visa condition 8532

- Visa condition 8532 applies to you. In general it means that you must maintain adequate accommodation, support and general welfare arrangements. You are not permitted to change those arrangements without

the approval of your education provider. This should be in writing. You are not allowed to enter Australia before the date specified by your education provider.

## Visa condition 8533

- Visa condition 8533 applies to you. This condition means that you must notify your education provider within seven days after arriving in Australia of your residential address (if you were outside of Australia at time of grant). In all cases, you are also required to notify them of any change to your residential address in Australia within seven days after the change.

If you intend to change education provider you are required to notify your former education provider within seven days after receiving an electronic Confirmation of Enrolment (COE) or other evidence of enrolment.

### National minimum wage

Certain employees may have different pay entitlements depending on whether they have a reduced work capacity because of disability, if they are under the age of 21 or if they are an apprentice or trainee. # Tuberculosis warning for international students

**International students are 10 times more likely to develop tuberculosis (TB) than people born in Australia.**

If you are from a country in Asia, Africa, the Indian sub-continent, South America or Eastern Europe it's likely you have been exposed to TB and are at a higher risk of being infected and getting sick from TB.

TB is an infectious disease that affects the lungs, other organs and bones. TB can be cured with medication but it can be fatal if left untreated.

**Around 14 million people have active TB and about one third of the world's population has a latent or silent TB infection.**

## Medication to treat TB is free in Australia

Students who are diagnosed with TB while in Australia will not have to pay for medication to treat it. Overseas Student Health Cover (OSHC) will help cover costs associated with diagnosis.

## If diagnosed with TB, students will not be asked to leave Australia

If students get treated for TB, it will not affect the conditions of their student visas as long as they comply with treatment.

## TB Symptoms

Seek medical advice and give the doctor this fact sheet if you have any of these symptoms:

- cough or fever for more than 2 weeks
- excessive tiredness
- night sweats
- poor appetite and weight loss
- coughing up blood

However, some people with active TB will have no symptoms.

## TB Spread

TB bacteria are spread from person to person through the air. People with active TB disease in their lungs can spread the infection when they cough, sneeze, laugh, speak or sing.

# Tuberculosis warning for international students

You can have TB even if:

## You have been vaccinated

The TB vaccine (BCG) helps protect young children against severe forms of TB. Even if you were vaccinated you can still get TB.

## You have been checked for TB

The Visa Medical Screen includes a chest x-ray to look for active or infectious TB. Many people will have latent or silent TB infection which is not found on a chest x-ray. Latent or silent TB does not cause any symptoms but can progress to active and infectious TB months or years after screening.

## You don't know anyone with TB

It is possible that you might have been exposed to TB without knowing it. Some people with TB have no symptoms and may not know they have active TB disease.

## Where to get help after arriving in Australia

**Talk to your doctor, university health service or local hospital**

— keep this fact sheet to give to your doctor if you have any symptoms of TB.
